Financial Services Committee Updates Web Site Address

The House Financial Services Committee has changed its Web site address to www.house.gov/financialservices. The new homepage address reflects the new Committee's name and expanded jurisdiction.

House Information Resources arranged for users logging on with the old address to automatically be directed to the new address and for bookmarks to be updated.

Included in information available on the Committee's homepage are press releases, scheduling information, hearing testimony and transcripts, Committee reports and bill referrals. Also available from the homepage is a live audio link to Committee meetings, hearings and markups.
